### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Claim 1 was allowed because the prior art failed to teach a method of transmitting a data packet wherein the redundancy is automatically reduced over the length of the packet after the commencement of transmission thereby increasing the coding rate. The prior disclosed adaptive coding systems wherein the coding rate is adjusted after changes in channel conditions are detected from frame to frame. However, the reduction of redundancy within a frame was not taught. Applicant discloses that it is logical to reduce the redundancy over the length of the frame because the error rate in the first few codewords of a packet is generally higher than the later codewords. This feature of Claim 1 is also found in independent Claims 5, 6, 10, 19, 20, 21, 22, 23, and 24.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Harry Vartanian whose telephone number is 571.272.3048. The examiner can normally be reached on 10:00-6:30 Mondays to Fridays.
